Class: V

DPSG67/CIR/0019/2023-24

Date: 9th May 2023

Dear Parents,

Greetings!

Children learn effectively in school through a combination of factors, including the quality of teaching, the classroom environment, and the child's own learning strategies and styles.

Facilitators at Delhi Public School Gurugram 67A encourages class participation through questioning and active discussions in class. Children learn best when they are actively engaged in the learning process.

Our zealous and passionate learners of Grade V embarked on a problem solving journey in the month of April, which recently culminated with a solution.

And, they can't wait to share this exciting journey with their parents and the community .

This journey started with the concept of 'Project Based Learning (PBL)' and their experiences with it. PBL is a teaching methodology involving students to work on a particular project or a problem for an extended period to explore and solve real-life challenges.

It is a student-centered approach to learning that fosters critical thinking, collaboration, communication, and creativity. The grade V students of Delhi Public School Gurugram 67A had the opportunity to participate in PBL and are excited and elated to share their thoughts and experiences. They have developed problem solving skills and would further hone it throughout the session.

DELHI PUBLIC SCHOOL
Gurugram | Sector 67A
Nurturing the Whole Child

While working on the project, the awareness the student's have on the subject matter has left us spellbound and would not be an exaggeration to call our learners "Tiny Human Libraries" with the knowledge acquired during this PBL period.

We cordially invite you to be a part of this journey on Thursday, 11th May 2023 at 8.45 am. The venue will be, grade V classroom.

We also encourage you to participate by asking them questions, understanding their process and thoughts and most importantly, cheer and appreciate them for the efforts they have taken during the entire learning process.

Looking forward to seeing you.

Thank you.

Warm regards,

Class Facilitator
