Activity Planner

An activity planner for a school serves as a hub of information about various extracurricular and co-curricular activities offered to students. It provides students, parents, and teachers with details about upcoming events, clubs, sports, and other engagement opportunities outside of regular academics.

Activity Calendar

A school activity calendar is a visual representation of the various events, activities, and important dates that are scheduled throughout the academic year. It provides students, parents, and staff with a comprehensive overview of what's happening in the school community. Here's a description of a school activity calendar:
